## HOW TO USE INDEX

In the master index on the next two pages, articles are listed alphabetically by title and are numbered consecutively. The cross-index by author or subject on this page refers to the number of the article in the master index.

Example: Plant Closings, 20

No 20 in the master index will give the title, page and month for an article on the subject of plant closings. Thus No. 20 on the master index shows "The Human Cost of Plant Closings," page 22, August.
